UNEMPLOYMENT CLAIMS HIGHER THAN YEAR AGO

Compensable unemployment claims were filed by 24 residents of the Belle Glade area during the first week in August. In the comparable week of 1952, only 11 such claims were filed. These figures indicate a higher level of unemployment during the current August than one year ago.

Active applications for work on file at the Florida State Employment Service office at the end of July 1953 numbered 271. This figure includes job seekers in Western Palm Beach County, Glades and Hendry counties. 182 of these persons are residents of the Belle Glade. Chosen, 3 South Bay area. Included in the 182 job seekers in this area are 96 females and 27 veterans.

Seasonally unemployed agricultural workers account for the largest occupational group presently seeking work through the employment service. Clerical and sales, domestic service, truck drivers, cannery workers and unskilled laborers are other occupational classifications of workers presently seeking work.

A. M. Larimore, manager of the local Florida State Employment Service, 109 South Main Street, urges all employers in this area to make use of this labor pool by placing orders for workers whenever needed.

Ground Observer's station and ward "wings" to those who have taken part in one or more "alerts."

Mrs. Mildred Larrick is supervisor, Mrs. Virginia Thomas, chief observer and Mrs. Winnie Plant assistant chief observer.

There have been to date two alerts, one on July 11-12 lasting from 6 am on Saturday, July 11 to Sunday, July 12 at 4 pm; the other on August 2 from 1 pm to 5 pm.

Ninety persons have signed up in the Lake Harbor Ground Observer's Corps. Twenty-five have taken part in one or both alerts and have been awarded the "wings" which they have earned by this volunteer service for their country.

The station is located at present at the home of Mrs. Larrick, but they are working toward the erection of a tower with telephone facilities to enable them to do a really worthwhile job.

The ground observer work done by volunteers during the submarine attacks on the Florida coast and continuing throughout World War II enabled the armed forces to detect any enemy planes flying for observation over continental United States. Stations were so located that any plane was constantly under observation from the time it left the ground until it returned; making it impossible for any unauthorized aircraft to remain long undetected.

The Ground Observers now being organized and serving as volunteers are doing an even more important work since with present day long range planes

STATE OF FLORIDA IS HELPING PAUL RARDIN TO WORRY MOSQUITOES

First tangible results of a state mosquito control program which was drafted several years ago by a Palm Beach County Commissioner, came back to the county board this week. The program by which the state shares in the cost of mosquito control work, was proposed by County Commissioner Paul Rardin when he was president of the State Association of County Officials. Rardin's plan—to have the state help defray the cost of work done by county mosquito control units—was approved by the last session of the state legislature.

Monday, the commission received a check from the state in excess of \$15,000 which represents the state's contribution for the last quarter of this year for county mosquito control. Beginning the first of the year, Commissioner Rardin

said, Palm Beach County will become eligible for an additional \$71,000 through provisions of the legislative act which authorizes the state to match 75 percent of funds appropriated by counties for mosquito control work.

In the case of Palm Beach County, Commissioner Rardin said, the board has budgeted \$65,000 for control work during the coming year. The state money, he said, is used for permanent control work such as the dipping and drainage facilities.

The \$15,000 payment received this week is based on funds appropriated by the county for mosquito control units during the present fiscal year.

The board this week, in connection with mosquito control, adopted a resolution naming the Riviera Beach bank as depository for mosquito control funds.

DR. SAYAD TO ACT AS MODERATOR FOR FREE CLINIC ON DIABETES

Dr. W. Y. Sayad will act as moderator for the Free Medical Forum on Diabetes on Tuesday evening, August 18th at 8:30 in the Palm Beach High School.

On the panel will be Dr. Sidney Davidson, President Elect of the Florida Diabetes Society, Dr. R. M. Irwin, Dr. L. W. Netto, Dr. C. M. Peck, Dr. W. G. Robinson, Dr. Y. A. Stanton, Dr. J. R. West, Dr. J. C. Skyer.

The Medical Forums are sponsored by the Heart Association of Palm Beach County, The County Medical Society and the County Health Department.

"We have a real job laid out for us, as Diabetes is affecting over a million people in this country. There are many being helped by their physicians but there are many with diabetes who have not been discovered. We hope during our hour long panel discussion, to answer the questions which will bring new hope to those who have diabetes and cause others to take steps to check themselves," stated Dr. Sayad.

Dr. Davidson commenting on the topic stated that one of the great triumphs of medical sciences within the past generation has been the discovery of methods of controlling diabetes. Diabetes has been known and recorded as a common disease for almost a thousand years. It is impossible to estimate the toll it took in human lives before modern methods of control were discovered. Even today, when diabetes are enabled to live practically normal lives, it still ranks eighth among the leading causes of death by disease in the U. S.

"The basic cause of the disease is still unknown, although a vast amount of research is being done to uncover it."

every challenge. Sunday School attendance is increasing every week under the direction of Superintendent Carol Warren. The Training Union begins an enlargement campaign the 24th of August, with Rev. Joe Folds, Miami coming to direct the campaign.

Plans are being made to launch a sixty thousand dollar building program to build a new church complete with educational units. At the last business conference a block club was organized. To become a member of the block club each person buys five building blocks and must buy one block every week to remain a member.

CHURCH OF CHRIST SCIENTIST

"SOUL" is the subject of the Lesson-Sermon to be read in all Churches of Christ, Scientist next Sunday.

The Golden Text is from I Chronicles (22: 18, 19): "Is not the Lord your God with you and hath He not given you rest on every side? . . . Now set your heart and your soul to seek the Lord your God."

Jesus' statement, "Take heed, and beware of covetousness; for a man's life consisteth in the abundance of the things which he possesseth" (Luke 12: 15), is among Bible passages to be read.

Readings from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "Soul has infinite resources with which to bless mankind, and happiness would be more readily attained and would be more secure in our keeping, if sought in Soul."

From a background of his own family history as well as study of E. A. Averill will speak on "The Mormon Religion and Way of Life" before the members and friends of St. John's Episcopal Church next Sunday at 6 P. M. at the home of Mr. and Mrs. Sam Lovell.

E. A. Averill, the general public is invited to hear this sympathetic discussion of and interesting form of religion.

ESTHER KIM'S STORY (Continued from Page 1) to her God. She reasoned that, in fighting against Jehovah and some one must win her what a dangerous thing she was doing. For about five years she fought the idea and then one day when she was teaching in Pyongyang, Korea she was ordered to the Shinto Shrine and she refused to go, she was called by the police, where she made known her views, and she knowing that was a preliminary to arrest, left and went into the mountains of North Korea, seeking seclusion.

When they realized she would not compromise, they offered as a bribe that she must be warned of the peril of molesting God's people, whom He was defending, so she bought a one-way ticket to Tokyo to obey God and die. By this time many Koreans were being imprisoned because of their refusal to bow at the shrines.

God led her to meet an elder and his son, who prepared a document warning the Japanese Empire of destruction that was sure to come from the great Jehovah God, Maker and Ruler of the heavens and the earth, and they rejected Him and they persecuted those who believe and follow Him. This document was thrown in the mill of the assembly. Die and they were arrested and thrown in prison. Miss Ahn thought she would be executed immediately, but she was sent to a prison in Pyongyang, North Korea, where she was held for five years. Her prison cell was about eight feet long and about four feet wide and more than nine people lived in the cell at one time. The temperature in the prison was unmanageable. They were given a small ball of food at each meal. Miss Ahn found that the hardest thing in the abundance of the things which he possesseth" (Luke 12: 15), is among Bible passages to be read.

Because of starvation and extreme weather of about 4500 prisoners 2500 starved or froze to death. Miss Ahn lost her sight; her hair fell out; she lost her teeth and her finger nails and she was covered with sores. Her skin peeled off 3 times due to the freezing weather. In this desperate condition she was continually being tempted by the authorities, although they said, if you would bow your head before the shrine just once, we would release you from this prison, healing my body.

But one day before the execution was scheduled for August 17th—suddenly the prison door was opened and she was welcomed by thousands of Koreans singing, "All Hail the Power of Jesus Name." Very soon she was released from the prison by their Shintoism had been destroyed by Jehovah, the living God, through Ahn's God's word given to her when she was called to go to Tokyo to warn them—Ezekiel 2—was literally fulfilled.

"When I was released from the prison I could not understand why God left me alive here, and why He had taken so many of my loved ones, and friends home to be with Him. But now I know that God wanted a witness left to tell of all the mighty works done of Him—self in prison. God has performed another wonderful miracle in restoring my sight and in releasing me from this prison, healing my body."

Outline for the INTERNATIONAL SUNDAY SCHOOL LESSON, AUGUST 16, 1953

LESSON TOPIC—"Christ Pre-Eminent" SCRIPTURE—Colossians 1: 3-8, 2-20

INTRODUCTION: Paul writes this letter to combat a heresy in the Church at Colossae. They had devised a system of religion that attempted to bridge the chasm between God and man by the substitute of a number of intermediate beings. Against all this Paul asserts the complete sufficiency of Jesus Christ as the one Mediator between God and His Universe.

FAITH, HOPE AND LOVE—Colossians 1: 3-8. Paul sets before them the 3 Christian Graces to guide them. I. CHRISTIAN GROWTH—Col. 1: 9-14.

II. CHRIST PRE-EMINENT—Col. 1: 15-21. a. The Agent of Reconciliation b. The Image of the Invisible God c. The Creator and Sustainer of the Universe 1:16-17 d. The Head Of the Church 1:18

CONCLUSION: We do not need in our day to add to the Gospel for it is complete and sufficient. This is the point Paul makes through out the letter. It is God's plan that all the fullness be found in Christ. It is therefore the basic denial of this truth to hold that anything more is needed. Such a view negates the effectiveness of the Gospel. Christ is able to save to the uttermost all who put their trust in Him. It is Christ, first and foremost, who is the Gospel plus something else. Christ can redeem, bring forgiveness, cleansing and power. He reconciles man to God and one to another.

Want to be nimble, smooth and quick?

TT Dynaflow does the trick!

WE have just the place for you. If such is your desire.

It's at the wheel of a 1953 Buick with Twin-Turbine Dynaflow.

And we suggest you hold on to your hat and your heart when the action starts—for here's what happens:

You press the pedal and, from a standing start, you're up to a legal 30 mph before you have time to breathe but twice.

Or, you're in the thick of traffic—moving smoothly, easily, quietly. Then, when it's safe to do so, you move instantly into the clear with the greatest ease—in one progressive build-up of velvet acceleration—

without a single gear shifted or a clutch pedal pushed.

That, sir, is the big thrill command you get in any 1953 Buick SPECIAL, SUPER or ROADMASTER with new Twin-Turbine Dynaflow.

For this fully automatic drive now has two turbines where one did the trick before. Two turbines for instant getaway response—with whisper quiet—and with infinite smoothness through all ranges.

Of course, a lot of able power goes with this smooth, quick getaway—the highest horsepower and compression ratios, Series for Series, in all Buick history.

And so does big room. And the supreme comfort of the Buick Million Dollar Ride. And the superb handling ease of finely balanced weight. Even Power Steering* is at hand to make parking and turning still easier.

Why not drop in on us soon and sample one of these great new 1953 Buicks with TT Dynaflow? It's an experience—and a value story—too good to miss.

*Standard on Roadmaster, optional at extra cost on other Series.
